

CHAOS

Covid-19 Disclaimer

The pandemic is driving us all crazy. But that's no reason to stop your productions. We aren't so chaotic that we forget about safety. No way. CHAOS stays on top of the guidelines set by the Dutch government. And if you forget about the rules, all hell could break loose! OK, a bit of hell, but just as a friendly reminder that we're all in this together.

Producing is, like Corona, an organic process that changes from day to day, project to project, and that's exactly how we prefer to deal with this pandemic ordeal: Agile, sturdy and with common sense not to mention a shitload of fun!
